PLEASE do not continue to allow SCE&G to run their business with their captive and unwilling customers paying all of their expenses. Having owned several businesses we subscribe to the concept that you make improvements based on what is possible while making a fair profit. They do not chose to do this as it could jeopardize their guaranteed returns for their shareholders This is getting to be a joke . We who are cast as the butt of the joke have had enough. Other States which are not as mired in the historical patronage mentality actually allow for a free market choice of utility providers. SCE&G would not have to concern themselves with expanding their empire if that were the case in South Carolina.  
Thank you for anything you do to keep them under some semblence of control.
